

PUZZELIZE

Unique Puzzles

WILDLIFE HOTEL

In collaboration with **Whimsical Collection**, who supplied this wonderful whimsical painting by South African artist Deziree Smith, this 293-piece puzzle's unique shapes include a rich tapestry of African animal species that remind us that we have an enormous impact on the world we live in, and a responsibility to protect and conserve the animals who call our beautiful planet home.

Puzzelize was born during the hard lock-down phase of 2020, one lover of puzzles developed the desire to do more than just build puzzles – but also to design them. **Puzzelize** evolved and now produces wooden jigsaw puzzles with special meaning and unique shapes. Each puzzle has a theme in line with the charity that the puzzle supports.

This puzzle supports **Care for Wild** – the largest orphaned rhino sanctuary in the world. **Care for Wild** is a globally recognized conservation organization dedicated to preserving endangered species and safeguarding the precious biodiversity of our planet.

Proceeds go to **Care for Wild** who specialize in the rescue, rehabilitation, rewilding and protection of orphaned and injured rhinos.
